JBCSSD-A02	Alternative in the Community	Recidivism reduction	JBCSSD	1999	Community Solutions, Inc. Community Partners in Action Centurion/Forensic Health Services, Inc. Perception Programs, Inc. Wheeler Clinic, Inc.	AICs are center-based programs and serve parolees, probationers, pre-trial and family criminal defendants. AIC programs use evidence-based or research driven cognitive behavioral interventions aimed to change behavior and reduce recidivism. Most services are gender separate. Services include: assessing individual client risk and needs using validated assessments (Level of Service Inventory-revised, Adult Substance Use Survey-revised, Women's Risk Need Assessment), provide case management based on client risk level, screen and provide clients basic needs. Group interventions include substance abuse, cognitive skills, employment services and job development/placement that are based on the clients assessed risk and needs. AIC services emphasize individual accountability and teach cognitive skills that enable clients to think and behave in a more pro social manner, that lead to behavior change resulting in reductions in recidivism.	Yes, JBCSSD contracts with a Quality Assurance agency to provide support to the AIC programs to ensure that integrity to the model is being maintained and to coach individual AIC staff on how to become proficient in delivery of the services.	3-6 months	Intakes- 4,869 Assessments: LSI- 593 ASUS-R- 2,051 Building Resilience CSSD: 5,130 Parole: 12 EXPLORE CSSD:2,476 Parole: 296 Reasoning and Rehabilitation II Short Version/ CSSD: 13,784 Parole: 1,643 Treating Alcohol Dependence/ CDCS: 5,186 Parole: 0 Moving On/ CSSD: 5,840 Parole: 86 LSWV CSSD: 3,817 Parole: 53 Case Management/CSSD: 13,720 Parole: 3 Employment Services Group/ CSSD: 3,668 Parole: 0 Job Development/ CSSD: 3,032 Parole: 0 Cognitive Management/ 274 Substance Use Testing: 9,162	1 - 60-90 minute session 1 - 60-120 minute session 6- 2 hour sessions 26-1.5 hour sessions 14 - 90 minute sessions 12 - 90 minute sessions 17 - 120 minute sessions 20- 120 minute sessions 2-4 - 30 minute sessions per month 9 - 90 minute sessions 2 - 60 minute sessions per week 30 minutes, 1x/week, 3-6 months Minimum 2 times per month	Never	75,695 total units of service in FY22

JBCSSD-J14	Multisystemic Therapy	Recidivism reduction Improved family relationship Prevent out of home placement.	JBCSSD	2002	Connecticut Junior Republic The Village for Families and Children NAFI Connecticut, Inc. Wheeler Clinic, Inc.	MST is an intensive, evidence-based family-and community-based treatment program that focuses on the entire world of chronic and violent juvenile offenders (homes and families, schools and teachers, neighborhoods and friends). It blends the best clinical treatments—cognitive behavioral therapy, behavior management training, family therapies and community psychology to reach this population. The overriding goal of MST is to keep adolescents who have exhibited serious clinical problems—drug abuse, violence, severe emotional disturbance—at home, in school and out of trouble. Therapists on the team are on call 24 hours a day, seven days a week. Such an intensive service is possible because therapists work with a limited number of families (5) at any given time.	Yes. Program is monitored by JBCSSD for contractual compliance.  QA of MST via MOA.	5 months	Individual Counseling Family Counseling Targeted case management	3x/week	Evaluated nationally, not in CT

JBCSSD-J22	Linking Youth to Natural Communities (LYNC)	Recidivism reduction Diversion of status offenders	JBCSSD	2019	Connecticut Junior Republic Connecticut Renaissance Inc. NAFI Connecticut, Inc. The Village for Families & Children	The Linking Youth to Natural Communities (LYNC) programs are multi-modal centers focusing on a scope of targeted services for court-involved youth ages 12-17 and their families. The overarching goal for the LYNC is to provide comprehensive services incorporating evidence-based practices that target criminogenic needs in order to change behavior and reduce recidivism. LYNC has a strong focus on connecting youth and their families to appropriate community and/or grassroots agencies and natural supports. LYNC aims to ensure meaningful connections to natural supports that will last past probation and program time and will assist in behavior change sustainability.  The LYNC will conduct intake assessment and provide cognitive-behavioral interventions, case management services to address basic needs and pro-social activities, and discharge planning that are gender-specific, evidence-/research- based, culturally competent, and trauma informed.	Yes. Program is monitored by JBCSSD for contractual compliance. 		The Council for Boys and Young Men	Juvenile justice	Cognitive behavioral therapy (CBT) for juvenile offenders	Not listed	Not listed	Research-based		

## Program Information

*Program Name*: Enter the specific, formal program name of the program. Spell out abbreviations and avoid acronyms or nick-names. For example: “Residential Substance Abuse Treatment (RSAT)” or “Functional Family Therapy.” (Give the name of the specific facility or location if appropriate.)

*Program Description*: Summarize key elements of the program. For example: “T4C (Thinking 4 a Change) is an integrated, cognitive behavioral change program for offenders that includes cognitive restructuring, social skills development, and development of problem solving skills.”

*Intended Outcomes*: Enter the names of outcomes that the program is intended to address, based on outcomes that are measured in the Results First BCA model (ie, crime/recidivism, child maltreatment, out-of-home placement, substance abuse, mental health, public health, public assistance, employment and workforce development and or health care)

*Oversight Agency/Department*: Enter the name of agencies in charge of the program. For example, Department of Corrections, Court Support Services Division, etc.

*Start Year*: Enter the year that the program first began in Connecticut.

*Service Provider(s)*: Enter the name of the oversight agency if the program is delivered by staff unless the specific program is contracted, in which case, name the contracted provider(s).

*Program Fidelity*: Is the program delivered with fidelity to the program design? Enter yes or no. If yes, explain how the fidelity is ensured.

*Average Duration of Program*: Enter the length of time required for program delivery. For example: “6 – 12 months” or “12 weeks”. At first, the inventory will contain a variety of measures – days, months, or years. Later, these should be standardized to months or years to use as inputs in the benefit-cost model.

*Frequency/ Intensity of Program*: Record the number and duration of classes or sessions. For example: “Ten 30 minute classes administered over four weeks.”

*Program Last Evaluated*: Enter the year that the program was last evaluated. Enter “never” if the program has not been evaluated. Provide copies of any program evaluations.

*Notes/Comments*: Provide any other relevant detail to help explain the program.

## Participants & Capacity

*Primary Participant Population*: When compiling the program inventory, it is important to include information about which populations are intended for each program. Sometimes programs are given to individuals who are not the appropriate recipients for the treatment. For example, low risk offenders with little likelihood of reoffending are often included in re-entry programs intended for middle to high risk offenders simply because they are a more manageable population; however, including low risk offenders in inappropriate programming can actually increase recidivism. Describe the intended risk classification or other qualifying classification for participants. For example: “Moderate-High Risk Offenders” or “Drug-involved Offenders”

*Average Age*: Enter the estimated average age of a program participant (regardless of completion) in state fiscal year 2013 (or the same year for which *Participants Served in FY13* is reported).

*Criminogenic Needs Addressed*: List the specific needs that the program intends to address. For example: Addiction disorder; psychiatric disorder; unemployment; domestic violence perpetration, etc. Also note the intended treatment population.

*Assigned Using Validated Assessment Instrument*: Name the screening/assessment tool used for assignment participants to the program, if a tool is used. For example: LSCMI, SASSI, etc.

*Participants Served in FY13*: Report the number of clients the program treated (regardless of completion) in state fiscal year 2013 (or 2014—whatever may be the most recent full year of data available).

*Eligible but Unserved Individuals*: Report the estimated number of persons in the program’s service jurisdiction that would qualify for or need this program, but who did not receive it. This may simply be a wait list. The estimate should represent an annual count from a single calendar or fiscal year.

*Annual Capacity*: Report the annual number of program slots or beds available at any given time as it is currently funded.

*Notes/Comments*: Provide any other relevant detail to help explain the program and its capacity.

## Cost & Budget

*Program Budget (FY13)*: Indicate the total amount budgeted by the agency for the program for the year that is used for the cost estimates.

*Percent of Total Budget (FY13)*: These cells are computed automatically to estimate the portion of the total agency budget related to the program.

*Annual Cost per Participant*: Record here the estimated annual cost of the program per participant.

*Marginal or Average*: Note the method of estimating the per participant unit cost for the program. Marginal if based on variable costs only or average if based on variable and fixed (overhead) costs.

*Funding Source*: List the source of program funds, e.g., legislative appropriations, county appropriations, user fees, federal grant, etc.

*Annual Cost per Participant for Comparison Group*: Enter costs of alternatives to the program if the program is used as a diversion or replacement from some other resource that would otherwise be used. For example, electronic monitoring may be used instead of jail to detain pre-trial defendants. The comparison cost would be the cost of jail for the same amount of time that the defendant would be on electronic monitoring.

*Year of Dollars*: This is the calendar or fiscal year of information used to estimate costs.

*Description of Program Costs (e.g., how calculated)*: Enter notes describing how per participant costs were calculated.

*Notes/Comments*: Provide any other relevant detail to help explain the program cost.

## Evidence-Based

*Policy area*: Identify the policy area that best describes the program's focus. See the program summary documents for further details.

*RF Program*: Select the name of the RF program that best matches to the state's program. Descriptions of RF programs are provided in program summary documents. The program list is populated based on the policy area selected in the previous column.

*Clearinghouse*: Enter the name of the clearinghouse or clearinghouses that reviewed the intervention. Further details found here under "Clearinghouses": <https://www.pewtrusts.org/en/research-and-analysis/data-visualizations/2015/results-first-clearinghouse-database>

*Rating from Clearinghouse*: Note the level of evidence for program effectiveness as indicated in RF's Clearinghouse Database. Further details available here under "Ratings Colors & Systems": <https://www.pewtrusts.org/en/research-and-analysis/data-visualizations/2015/results-first-clearinghouse-database>

*Type*: Enter the type of program: evidence-based, research-based, or promising. An 'evidence-based' program incorporates methods demonstrated to be effective for the intended population through scientifically based research, including statistically controlled evaluations or randomized trials. All programs in the RF model are evidence-based. A 'research-based' program is a program or practice that has some research demonstrating effectiveness, such as one tested with a single randomized or statistically controlled evaluation, but does not meet the full criteria for evidence-based. Finally, a 'promising' program is a program or practice that, based on statistical analyses or preliminary research, shows potential for meeting
